Manufacturing lightweight specialty publishing papers is our strength. With 90+ years of experience, **we are known for our manufacturing flexibility, product innovation and service**. Our expansive line-up of freesheet and premium hybrid papers delivers choice in the areas of basis weights, brightness levels, shade and PPI ranges, helping customers align paper specifications with project requirements.

Our papers are used in a variety of high-volume applications including **financial printing, directories, manuals, religious text, workbooks, catalogs and trade books**. They set industry standards through innovation. Our groundwood bleaching technology facilitated our pioneering a new category of product — premium hybrid. And, we make some of the lightest papers in the industry, allowing customers to optimize project costs through basis weight.
